Conference Delegates:

It is, indeed, a pleasure for me to bring greetings on behalf of the Department of Community and Cultural Affairs and the Province of Prince Edward Island.

Staging a conference that explores the Active Transportation movement and its potential to affect life within Atlantic Canada is both timely and pro-active. Our province, together with other provinces and territories across the country, are facing issues around inactivity and obesity on a daily basis.

Engaging communities within Atlantic Canada on ways to encourage their citizens to choose healthy transportation options such as walking, cycling, and in-line skating will contribute positively to the inactivity problems of our population and create more environmentally friendly communities.

I congratulate you for showing leadership on this initiative and look forward to receiving the outcomes of your discussions.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Elmer MacFadyen".

Elmer MacFadyen
Minister
